

Trails & Greenways Etiquette

Be Courteous to Other Trail Users

Keep to the right and pass on the left. Faster traffic must always yield to slower traffic and oncoming users.

Give an Audible Warning When Passing

Give clear warning signal when approaching from behind.

Do Not Block the Trail

To prevent blocking other users, never use more than half the width of the trail.

Obey Signage

Always stop for traffic at roadways and intersections.

Clean Up Your Litter

Please keep the trail clean for other users to enjoy. Do not leave glass, paper, cans or other debris on or near the trail.

Trail Etiquette for Dog Owners

All trail users should bear to the right to allow passing, but dog owners should be especially mindful of this with respect to leash extension. Please keep control of your dog. If your dog must relieve itself, please move off-trail if possible. On grass or pavement please pick up and dispose of your pet's solid waste. If provided, use "pet stations" for plastic bags and trash receptacle, or bring your own materials.

Prohibited Uses of the Trail

Motorized vehicles, including snowmobiles, golf carts and ATVs, are prohibited from use on the trail. Motorized wheelchairs are allowed.

Show Respect

Respect the privacy of adjacent landowners and do not enter their properties. Those responsible for defacing or damaging trail property may be prosecuted.

Please contact the Greenwood Parks & Recreation Department at (317) 881-4545 with any questions or concerns regarding the city's trail system. Users of the trail system do so at their own risk.

Support the Greenwood Trails & Greenways

Even with grants and budgeted city expenditures, donations to the Greenwood Trails Fund will maximize the trail system's mileage as well as the amenities surrounding the trails network. Donations at any level are welcome and may be tax deductible. Please consult your tax professional.

Make a personal or corporate donation today.

Donations in support of the City of Greenwood Trails System may be made payable to:

Trails & Greenways System Vision

The vision for the City of Greenwood Trails & Greenways System is to create a convenient network of multi use trails, greenways and walkways and provide alternative transportation options for a variety of recreation activities, including walking, hiking, running, cycling and skating.

The Importance of Greenways

Greenways are planned corridors of parks and open space that are managed for conservation and recreation purposes. Including habitats and trails, greenways may be either paved or unpaved, and often follow natural land or water features to link populated areas, such as neighborhoods, with parks, civic areas, schools, churches or other cultural amenities for recreation and conservation purposes.

Recreation, Convenience and Other Benefits

In addition to the benefit of providing alternative transportation options, the Greenwood Trails & Greenways System will:

- Provide a variety of recreation and exercise options to Greenwood residents
- Provide a convenient network of paths connecting residential, commercial, natural and recreational areas
- Enhance our community's natural landscape, while improving the quality of life for residents
- Preserve and create open space for future generations
- Provide economic benefits to the area such as expanded tourism opportunities
